## Polyethylene (Construction) Rolls

Made in Saudi Arabia

Polyethylene roll is used for many different construction and many other purposes. Thick plastic sheeting is generally referred to as heavy duty. Some common Applications for this product include using it to winterize windows, as a cover to outdoor protection, or even and a paint drop cloth on floors.

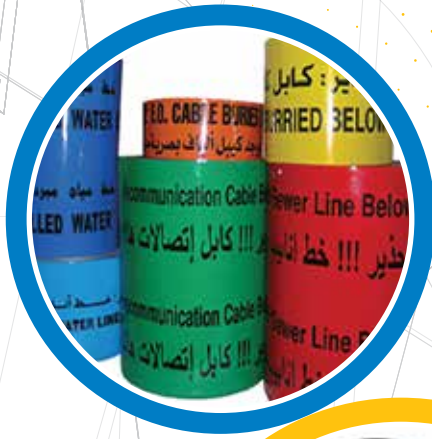

It can be custom produced to match specific colors, thickness, size and finish. Most importantly it is completely 100% recyclable making it an environmentally friendly product.

### Finished Sheets
